Effective Team

More than 800 dedicated engineers, employees, and helpers offer a fully coordinated design, scheduling, manufacture, installation, and maintenance package. Al Moosa Doors provides guaranteed technical solutions, on time, to consultants or architects according to the latest international standards. Our projects department experts are on hand to develop product solutions to exceed customers' expectations in terms of technical specifications and aesthetics. Innovative and creative solutions are provided to overcome even the most problematic design schemes.

WAREHOUSES

+16000 sqm of factory and warehouses, equipped with latest technology of manufacturing machines, monitored by extensive safety procedures and assisted by a developed logistic system

MAINTENANCE & INSTALLATION

The Maintenance and Installation Department is managed by a team of qualified engineers, technicians, and support staff.

Products

ROLL - UP DOOR

- Made with 0.5mm thick zinc-alum, in pre-painted steel.
- Up to 5.8 m width and 5 m height.
- Available in six colors
- Anti-crush safety system.

SLATES SHUTTER DOOR

- Single Shutter doors
- Perforated shutter door
- Dual face Shutter Door
- Dual face Shutter Door with insulating material polyurethane
- Dual face aluminum thickness 1.2 mm

SLIDING GATE

- European made
- Accepts up to 3500 kgs
- Remote control or push-button activation
- Safety system and manual mode in case of power failure

SWING GATE

- European made
- Accepts up to 400 cm for double gates
- Remote control or push-button activation
- Safety system

BARRIER GATE

- European made
- Available in 3, 4, 5, 6 and 8 meters
- Safety system and manual mode in case of power failure
- Remote control or push-button, magnetic loop or access control activation

- Available in thickness : 4cm made in Italy and 5 cm made in the USA.
- Available four colors (White, Beige, wooden color, dark wooden color)
- Insulated by "polyurethane" in order to prevent heat and humidity.
- Anti-crush safety system.

Automatic Hospital Door

- Designed for Operating rooms, ICU or CCU rooms, Labs and X-ray rooms
- Enable full passage opening. It can be either automatic or manual.
- Stainless steel or HPL panel, simple or hermetic sealing, blind or with vision panel.
- Can have a lead X-ray shielding of different thickness: 1,2, 3, or 4 mm

GRILL DOOR

- Offers a high level of security and can be designed, manufactured and installed to suit your specific requirements.
- Ideal as added security and allows full view of visitors before allowing access.

Automatic swing operator

The heavy-duty electro-mechanical operator is suitable for use on large heavy doors, yet adaptable enough to be used in low energy applications.

Window shutters

- Enhances security and privacy
- Protects from dust and sunrays
- Available in 4 colors
- Motor is Made in France, with 5- year guarantee

Fire Rated Doors

- Fire-Rated steel doors play a vital role in keeping people safe and minimizing property damage during a fire.
- Labeled fire doors control the spread of fire and smoke for up to 3 hours.

HOLLOW METAL DOOR DIVISION

- Shown to have superior performance for strength and durability compared to the alternate materials.
- Metal doors are more sanitary, much easier to maintain, and can withstand more abuse than wood or aluminum doors.

Automatic Sliding Door

Very reliable method of automatically opening and closing doors, and are available in single sliding and bi-parting versions

Revolving, Curved, Circular Door

- Ideal solution for energy efficiency, convenience and security.
- Smooth traffic flow regardless of your requirements.
- Various sizes, models and finishes

Bullet Proof Door

- Bullet resistant steel doors and frames are secure from ballistic attack, yet have the appearance of hollow metal doors.
- A complete range of bulletproof doors are readily available and can be furnished with factory installed bullet resistant glazing.

Special Purpose Doors

Acoustic, blast, bullet proof, ballistic doors are suitable to a wide range of applications, from military sector to industrial, civilian and public sectors.
